SUBJECT: State Agencies Provide Employees With Itemized Salary Or Wages Statements In Writing or Electronically

Assembly Bill 385 (Nakano), as enacted on September 22, 2003, made the following changes to California law:

This act allows a state agency to provide each employee the option to receive electronically the itemized statement of deductions made from his or her salary or wages.

This act makes the electronic statement provision contingent upon the State Controller's "21st Century Project" being funded and implemented. Additionally, this act specifies that the wage statement will be provided only to the extent the project enables the State Controller to provide the information electronically.

This act is effective January 1, 2004.

This act will not require any reports by the department to the Legislature.
